Carlson Maritime Travel

In 1781 the Spanish established El Pueblo de la Reina de Los Angeles around the Mission San Gabriel.

The "City of the Angels" continued to grow to become a symbol of opportunity on the west coast after California joined the United States in 1850. The nation's second largest city with over ten million people living in Los Angeles County, Los Angeles (or as some call it, La La Land) embodies prosperity, fame, glitz, rapid growth, and expansion enhanced by its recognition as the undisputed "entertainment capital of the planet."

*For our **Art and Architecture of Los Angeles** tour, we look at the rich architectural history, past and present, and the phenomenal museums and cultural attractions that complement the energy and natural beauty of this city on the Pacific Rim. Join us as we view early modern buildings (1880-1930) that rivaled those of the Chicago School to iconic buildings by internationally known contemporary architects including Richard Meier, Diller Scofidio + Renfro, Renzo Piano, Peter Zumthor, and L.A. based giant, Frank Gehry. The number of museums, major art collections, and cultural institutions in Los Angeles rival any city in the world, and visiting the Getty Center, Los Angeles County Museum of Art (LACMA) and The Broad Museum provide an extraordinary overview of art history. Add the incredible Walt Disney Concert Hall, newly opened Academy Museum of Motion Pictures, landmarks we will see as we move through the city, while staying in the heart of downtown L.A. at the post-modernist masterpiece Westin Bonaventure Hotel designed by architect John Portman, Jr. This all adds up to an unforgettable experience as we explore the best of Los Angeles.*
